-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --  
Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

In view of applicants' response filed 4/14/06 the following applies. While applicants have addressed the rejections of the previous action and the amendments made to the claims and specification overcomes all previous issues, the following applies for the amended and newly presented claims.

Claim 16 is rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

1. Claim 16 is of unclear scope since it recites what is excluded and thus does not clearly define what is within applicant's invention. Note *In re Schechter* 98 USPQ 144 .

Claims 6,7 and 9 are rejected under 35 U.S.C. 112, first paragraph, as failing to comply with the written description requirement. The claim(s) contains subject matter which was not described in the specification in such a way as to reasonably convey to one skilled in the relevant art that the inventor(s), at the time the application was filed, had possession of the claimed invention. The newly added proviso has no descriptive support in the disclosure as originally filed. The new proviso requires that certain ranges of lower alkyl groups in R2 can only be present based on the nature of the R1 variable which is not seen to be described by way of

a preference for the new subgenus or examples in the disclosure as originally filed.

Note Ex parte Winters, 11 USPQ 2d 1387 and Ex parte Grasselli 231 USPQ 393 regarding new matter problems when narrowing the claims.

Claims 1,2 and 5-17 are rejected under 35 U.S.C. 112, first paragraph, as failing to comply with the enablement requirement. The claim(s) contains subject matter which was not described in the specification in such a way as to enable one skilled in the art to which it pertains, or with which it is most nearly connected, to make and/or use the invention. Solvates, newly added, are not enabled since generally not all solvents can form solvates with all compounds. There is no process enabling such a scope in the specification .

Note Vippagunta provided herein who flatly states on p.18, section 3.4 the following: "Predicting the formation of solvates or hydrates of a compound.... is complex and difficult." Applicants' own specification confirms this since despite numerous examples presented none of the final products were obtained as solvates.

Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.
